## PROFILE

Backend Developer with strong skills in Java, Spring Boot, and MySQL, with additional knowledge of PHP. Experienced in building RESTful APIs and database-driven projects through internships and academics. Quick learner, eager to apply PHP skills and contribute to scalable applications.

## EDUCATION

- MCA (Master of Computer Application) | Chitkara University, Punjab (2023 - 2025) 7.8 CGPA
- BCA (Bachelor of Computer Application) | Punjabi University Patiala (2020 - 2023) 7.2 CGPA

## WORK EXPERIENCE

### Full Stack Java Developer Intern

#### Pisoft Informatics Pvt Ltd. (Jan 2025-July 2025)

- Developed scalable applications using Spring Boot, Hibernate, Thymleaf
- Implemented RESTful APIs and integrated MySQL databases.
- Performed CRUD operations and managed relational data using MySQL.
- Gained hands-on experience in backend development, debugging, and deployment.
- Understood real-world software development processes and team collaboration.

## TECHNICAL SKILLS

- Languages:** Java, JavaScript (Basics), SQL, HTML, CSS, PHP
- Frameworks:** Spring Boot, Hibernate, Spring MVC, Core PHP
- Databases:** MySQL
- Tools:** Postman, Netlify, Render, GitHub, XAMPP
- Concepts:** Object-Oriented Programming- OOPS, SDLC, MVC Architecture, Spring Data JPA, CRUD Operations
- CMS Software:** Basic CMS (Shopify)

## PROJECTS

### ScanDine Project – Full Stack Development

- Description:** Built a QR-enabled Restaurant Ordering System allowing customers to scan QR codes, browse dynamic menus, and place seamless orders.
- Backend developed in PHP with MySQL database using XAMPP server environment for smooth local development.
- Implemented CRUD operations for menu items, customer orders, and user profiles, ensuring complete data management.
- Integrated PHP-Mailer for automated order confirmation and admin notifications via email.
- Technologies:** PHP, MySQL, HTML, CSS, JavaScript

### Online Course Management System -Full Stack Project `CODE`

- Description:** Developed a full-stack web application for managing online course operations such as student registration, course creation, and enrollment tracking.
- Utilized MySQL for data persistence and Postman for testing and validating RESTful APIs.
- Technologies:** Java, Spring Boot, Spring MVC, Spring Data JPA, MySQL, Postman

### Hotel Management System - Java Spring Boot Based Project `CODE`

- Description:** Developed a Spring Boot backend application to manage hotel room bookings, customer records, and room availability.
- Integrated Postman to test and verify API endpoints.
- Implemented full CRUD functionality.
- Technologies:** Java, Spring Boot, Spring MVC, Spring Data JPA, MySQL, Postman.

### Student Management System - Java Spring Boot Based Project `CODE`

- Description:** Developed a RESTful backend using Spring to manage student operations such as student registration, course enrollment.
- Implemented full CRUD functionality.
- Technologies:** Java, Spring Boot, Spring MVC, Spring Data JPA, MySQL, Postman.

## CERTIFICATION

- Typing Competition (3rd Place)**– Chitkara University (Achieved a speed of 42 WPM in a university-level competition)
- Java Deep Diving – From the Beginning - Udemy - View Certificate**
